

**Criminals don't listen to the "No Concealed Weapons Allowed" signs; but they know YOU SURE DO!  
 Don't Allow this mall to bring a Wakefield, MA, incident here to South Carolina**

If you believe that the posted "**NO CONCEALED WEAPONS**" signs are protecting you and your family from harm please throw this flyer away!

Criminals are bad people, but are not stupid. They know when "No Conceal Weapons" signs are posted that **YOU CANNOT DEFEND YOURSELF AND ARE EASY PREY**. All across South Carolina a pattern is developing, criminals are using these signs to pinpoint where to commit their crimes. The establishments that are putting up these signs are placing you and your families in danger. It is only a matter of time before they strike this mall; do you want yourself or your children to become a statistic?

The companies that post these signs claim, "my insurance company makes it mandatory". Wrong. Insurance companies do not make it mandatory. Are you also aware that if you are raped, murdered, or robbed, you can legally hold this mall responsible. How? By posting they are saying that they will be insuring your safety in the parking lot and in the mall. You can hold them legally responsible because they have taken your right to defense away. According to South Carolina law if they **DON'T POST** they do not have to provide extra security measures. State law [§23-31-215(R)] says the "absence of a sign prohibiting concealable weapons shall not constitute negligence or establish a lack of duty of care". **YET THEY STILL POST!**

**NOW WHAT CAN YOU DO?**

1. You can continue going to this mall and hope that you and your children do not become a **VICTIM** of a crime.
2. CALL: John Barnes, General manager at 448-2513 ext. 22 and CEO of Bouroughs and Chapin, Doug Wedell 448-5123 ext. 3273 and **DEMAND THEY TAKE DOWN THEIR SIGNS** because they are creating an **UNSAFE MALL** for you and your family. Also tell them if the signs don't come down it shows that they have little regard for the lives of their patrons you **SHOP AT ANOTHER MALL**. Now if you want to **DO MORE**.....
3. **JOIN US** in protesting establishments that are putting our families in extreme danger. It will not cost you anything but some time. If you feel as strongly about this situation, as we do, join us so other strikes can be enacted. **HELP US SO WE CAN HELP EACH OTHER PROTECT OUR FAMILIES**. The more voices heard the more change we can enact!
